</tr>
</tbody>
</table>

(11) Brief Description of Duties: The Health Professions IT Partnership (HPITP) Lead Programmer / Analyst supports the HPITP schools, focusing on School of Nursing staff, faculty and students in the use of client/server and LAN technologies to execute the research, instructional, administrative and public service missions of those entities. The incumbent will work within the School of Nursing and with other LAN support staff in the HPITP schools to maximize efficient utilization of existing HPITP and campus resources in the delivery of LAN support services. Duties include client/server and stand-alone desktop support for hardware, OS, NOS and applications; meeting with HPITP faculty, staff and students regarding their needs on specific LAN support topics and maintaining a working knowledge of current and emerging hardware and software tools relevant to the job.

(12) Minimum Qualifications: A Bachelor's degree, preferably in computer science or related technical field or a combined education and experience equivalency is required. At least two (2) years of Network Operating Systems experience required. Excellent written and communications skills are required.

Preferred but not required: Official certifications (e.g., Microsoft certified engineer); experience with Microsoft NOSs preferred. Complete proficiency in the installation, maintenance, and troubleshooting of client/server based local area networks. The incumbent must have technical experience with microcomputer hardware, operating systems, platforms and NOS.
